

DataVault™

Introducing the CHIPS Technology Group DataVault™

Your data is your network. Never before has keeping your data safe and available been so important. At CHIPS Technology Group, we know how important every file, spreadsheet, drawing, or accounting file is to your business. So we developed the Fusion Support DataVault™, your information is backed up 5 different ways – every day. It’s all part of our philosophy of preventing a problem before it starts and getting you back up and running fast – without a huge consulting bill.
